## Capital Gossip

By Mountaineer.

Washington, D.C.

Editor Eagle.

Chap Clark appears to be not only the man of the hour, but the coming man also. He is the possessor of the most conspicuous Presidential boom in Washington at the moment. It was precipitated at the now famous harmony fest in Baltimore and has been nourished here around the Capitol ever since. The boom received new force in the Democratic caucus of last week. Whether conscious of his merits as a factor in the Presidential race for 1912 or not, Mr. Clark's actions at that caucus certainly did not prejudice any one or any faction against him. His conduct was conciliatory and soothing. He submitted to be shorn of practically all the powers of Speaker like a lamb. The power to appoint committees was taken from him with his approval. As Speaker he will be no Car. Free from nearly all the responsibilities that attach to the present Speaker, and to all the Speakers that ever were, Mr. Clark cannot endanger his boom for President by making enemies in the House in the course of procedure. If there is any Carism the Committee on rules will have to stand the responsibility, not the Speaker. It is distinctly

a Southern boom. The South so far as Congress is concerned stands by Clark to a man. And the South will have the best of it in the sixty-first Congress. The Ways and Means Committee will be headed by Mr. Underwood, of Alabama. This and other important committees are to be enlarged to a membership of twenty-one. Only the Rules Committee will not be enlarged. There are numerous candidates for the chairmanship of this committee with almost a moral certainty that it will go to a Southern man. Several Kentucky members are in for good committee places. The Ways and Means Committee will be organized on the adjournment of the present session, and will proceed at once to work on a new tariff bill. When Congress next meets it is proposed to have the bill well under way.

The Senate met last Sunday and performed the antiquated rite of delivering eulogies on dead Senators. Time was saved by doing this on Sunday and there is no evidence that the five or six departed statesmen objected. The one element in the Senate just now is time. Business is banked up to a discouraging extent. They may get thru by March 4, but it will require an accelerated pace and probably night and Sunday sessions.

### A Sensible Little Letter

Los Tanos, N. Mex., Jan. 23

Dear Editor,

Shall I be allowed space in the columns of your paper for a few words to my dear friends in old Letcher whom I so dearly love? We have been living here for more than three years and have many nice little friends whom I love. But when I get to think of my dear friends in Letcher county it seems to me that they are much nearer and dearer to me than anyone elsewhere. I noticed in the Eagle that there had been quite a destruction by fire in Whitesburg and am sorry indeed for those who suffered loss. I am glad to learn that the railroad is being built. I expect to visit up there this spring.

Your little friend,

Alpha J. Frazier.

The Courier-Journal and the Eagle, two of the great papers of the State, offer a bargain in subscriptions on page 3.

### A Mother's Heart Wrung

A few days ago the Angel of Death came into our home and took away Johnny, our dear little 15-year-old boy. He had suffered patiently for eight long years. We so much miss the prattle of his tongue and joys of his sweet smile. But we look up and feel sure that he is resting in the smiles of Jesus. Oh, Lord, comfort our hearts!

Eliza Davis, Wright, Ky.

### The Eagle Has Come to Stay

Harlan, Ky. Jan. 26

Dear Editor,

I hand you herewith check for \$1 for account, and wish to say that the copies of your paper I have received have impressed me with the fact that, whatever new enterprises and utilities may be necessary with the advent of the railroad to Whitesburg, the Eagle will not be supplanted, but will amply meet the necessity for a good clean county paper, which would be a credit to a town many times larger than Whitesburg now is. Wishing you prosperity as one deserving. I remain, Yours truly,

W. W. Lewis.

### DELIGHTS EVERY HOUSEWIFE.

Any woman who makes a fair test of A-1 Purity flour is a convert. It does not make any difference what she tries first—bread, biscuit, muffins, angel food or gems, the results will be so satisfactory that there will be no use in arguing with her. She has been looking for a flour that is good for all sorts of baking, for years, and A-1 Purity fills the bill. This flour is for sale by Lewis Bros. at 95c a bag or \$7.75 per bbl.

## The R.R. Depot

It develops of late that there is an apparent uncertainty on the part of our citizens as to just where the depot will be at Whitesburg. The Eagle would under no circumstances attempt to pull down one section of the county or one section or one end of the town in order to build up or enhance another end. What we want is a big, wide, intelligent and business Whitesburg and whatever will bring that we are in favor of. Now, some of our friends have said that in case the depot is not located at the upper end of town on the property bought of Ira Fields the town will be greatly damaged. On our part we think this is partly true. In other words, we believe that it will be better for the progress of the town, better for its growth and better for all concerned for the depot to be located at the upper property. But, again, suppose it should be built on the Robert Blair place or lower down on the Watson Caudill farm it would enhance the value of property down there and thus make our city grow at that end instead of at the upper end. What is food for the goose is also food for the gander. The Eagle exercises partiality for or against no man. On its part it will be benefitted as much with the station one place as the other, but it wants the L. & E. people to do the very best it can for Whitesburg and all concerned. This old town will perhaps always be the county seat of Letcher county; it will likely as not always be the legal business center for all the citizens of the county. It will never be surrounded by coke ovens or mining camps or be the congregating place of that class of humanity that gathers around a mining town. Whitesburg will be for years the residence of a clean class of citizens including railroad officials, business managers of mining operations and the headquarters of business men of all sorts. In a few years it will be a new Whitesburg, tho' without the pool room, the billiard table or the saloon. That class of business will surely not be permitted to enter. We hear it often remarked that even big railroad corporations sometimes do things to spite people. Whether this is true or not we can't say. From the time that this railroad proposition was first started last August till now nine-tenths of our people have been as favorable as possible to the railroad. Till the railroad is finished and the trains running and on afterward it will be more or less worry to our citizens. The railroad authorities know this and we feel certain that those who have the management of things in their hands will, in the location of a station at this place, put it where it will be for the best interests of our people both in the country and in town. We want to see Whitesburg grow at both ends, on all sides and in the middle. It has

ever been the gathering place of our citizens many times during the year. They from their own pockets built the Courthouse and the jail, both the equal of any buildings of the sort in Eastern Kentucky. This being true it ought to be and it must be the pride of every good citizen to see the old town widen out in its borders. Therefore, citizens of Whitesburg and Letcher county, and railroad officials and whatnot, join hands and hearts, drop every spite, if you have any, and let's bend every energy to make Whitesburg the pride of the mountains.

## As To Whitesburg Pertinent and Pungent Paragraphs for Our People's Perusal

If our citizens want little villages and hamlets to spring up at the mouth of every hollow and at every cross-roads, they must put property entirely out of sight and continue to keep up factional differences. Little fish are constantly fighting and jabbing and quarreling with each other. The big fish help each other or pursue their own course.

If the people of Whitesburg want the town to be a respectable town now or in the future, they must see to it that the depot is in the town. If they want a long, slow, thriftless grower, build the depot a mile or so away.

It is better to make one dollar while your neighbor is making ten than to make no money at all. Suppose someone was to attempt to raise funds for the purpose of publishing a "booming directory" for Whitesburg, how much money do you guess that someone would get? Our business men might be afraid to publish Whitesburg to the world lest it help someone else. Isn't it time to stop doing business on such a small scale?

Whitesburg can never expect to be a business place, no matter where the depot is located, unless property owners come down to earth on town lot prices. Let us all pull together.

Just a very few people own most of the property that would be required to make Whitesburg grow. If they refuse or fail to lead the van for a Commercial Club why should us little "fry" attempt to do so? Those who have property to sell could be most benefited by bringing people and industries to this place.

A few minutes delay in treating some cases of croup, even the length of time it takes to go for a doctor often proves dangerous. The safest way is to keep Chamberlain's Cough Remedy in the house and at the first indication of croup give the child a dose. Pleasant to take and always cures. Sold by all dealers.

An advertisement in the Eagle speaks to a thousand right out from the shoulder and five thousand more on the wing.

Mr. Starkey will also proceed at once to have franchise for his lines granted by the city government, a thing which has never yet been done. There are no births or deaths to report this week. Dave Adams will locate in the property vacated by Floyd Fields.

Say, how will we ever know when it thunders up here? It will be hard to distinguish between the big blasts and thunder at this distance. Many rusty mattocks and old hoes have been brought into use in the last few days and our farmers are beginning to start work on their crops. (The thing to do right now. Crafts Colly apparently manages to stop ahead generally in starting farm work. Let our farmers proceed at once to follow the example set. Get busy!—Ed.)

Work on the L. & E. extension 'round here is being pushed right along.

Karl Davis is now located on his own "mountain".

Jas. M. Hogz will soon have his neat residence completed.

The first new town to spring up on the new railroad extension is Colly, at mouth of Craft's Colly. See ad for sale of lots in this issue.

It will soon be ground-hog day. Won't he fear and tremble when he hears the big blasts?

W. R. Callihan, a well known coal inspector of Roxana, was here Tuesday.

When February comes its time for the farmer to begin to look around. This will be a good month to do considerably spring plowing. In order to insure good crops next summer be sure you are a subscriber to the good Eagle.

February is just as long as any month in the year. If you don't think so count the letters in the word and see.

J. H. Gibson, Col. Salyer, D. W. Webb, Sam Tyree, Ira Fields, John A. Webb, Doggett-Doughty Co., Monroe Fields, Swift Coal and Timber Co., all of this place, Combs Bros., of Isom, James Combs, of Smoot Creek, John Q. Holbrook, of Millstone, Dr. Kramer and others have our thanks for job work orders.

Several persons who owed us on subscription and came to town at court but said nothing about paying anything will be off the list after this week.

L. W. Fields will move into his temporary residence in the upper end this week.

Jailer Hall's little boy that was badly burned a few days ago is in a fair condition to get well soon.

The country editor has to divide himself into more parts than any one else. It is, therefore, no wonder that he has to sometimes spread himself out mighty thin.

More than 20 Slavs (natives of Poland) arrived Tuesday and went on down the river to work on the R.R.

Notice is given in this issue of bids for a new church here at or near mouth of Rockhouse. This is the old Indian Bottom Regular Baptist Church which was organized in 1810, over 100 years ago. Uncle Jim Dixon has been pastor of this church for over 40 years. We ought to see to it that this old landmark is retained.

Work hands are dropping in by the bunch to work on the R.R.

The man who deals with an independent class of people for a long time becomes somewhat independent himself and concludes that there is little dependence to be put in anybody.

Before passing into the land of unconscious sleep at night, every person ought to think whether he has discharged his obligations during the day just passed and

what they will be on the morrow. The person who has no obligations or fails to discharge what he has is a poor person, indeed.

They say the roads between Whitesburg and Stonega and Pound are in a pitiable condition. How could they be otherwise with so much traffic and made out of dirt to begin with? Did you ever think how costly poor roads are to the people? But we have talked much through the Eagle along this line and it was labor, space and ink wasted.

We have been guilty a few times in our lives of acting the "smart Alec" and every time we thus acted we went away with a secret shame eating in our heart. Our victim went his way hurt at our "smartness." He will not forget the wound inflicted while we feel down in our heart a "small potato."

It's no skin off the railroad company's heel where the depot is located. It's "we-uns" that will suffer or be the loser.

Occasionally some of our very best friends get vain enough to believe that we purposely shun mentioning them in our columns. We can truthfully say that we have never been little enough to do anything like this purposely. We have no enemies in this country or elsewhere on our part. We have a lot of personal friends that we would sacrifice our own comfort and pleasure for, and yet some of them are the very ones that get it into their minds that we are not their friend.

Boys and comrades we are passing along swiftly toward one common end and let us bear with each other's faults and with each other's thoughtlessness. Life is hard enough at its best without our constantly bumping each other. "Good evening, Bill," "good evening, John," or Jack, or Dave, or Tom, or who ever else," speaks volumes in this life in our passage to the grave.

Mrs. Pursifull and children left Tuesday for Pineville and Jellison on a visit to friends and relatives.

Little Teddy, son of Dow Collins, is very ill of croup.

N. Starkey, of Pikeville, manager of the Eastern Kentucky Telephone Co., has been here on a business deal with Judge Jas. P. Lewis.

All who owe us for job work should call and settle on the first few days of the month.

We suggest Glenwood for the name of the new town to be built at mouth of Colly.

By the first of May it is believed more than 1,000 work hands and strangers will be in

Letcher county. Will we ever be our simple selves again?

John Craft, Jr., returned from a trip down the State.

Dr. Pursifull says he will start in business here again soon as possible.

Farmers, don't fail to get ready to plant the biggest crops of your life this year. Golden prospects lie just ahead of you. Hit the grit and hit it hard. On Saturday evenings drop out and see how the railroad work is progressing. Urge your boys to stay in your homes and on the farm. Do this for the life of them.

Sam C. Tyree left an order for more printing.

John S. Webb the Marble and Monument man of Thornton was here yesterday.

H. M. Collier, of Eolia, who looks after the business of the Mineral Development Company's interests was here this week.

We always print all the news we can get hold of and would be pleased to have all the rest.

The Jackson Times is now an up to date, six column folio and speaks right out in meeting.

The Courier-Journal and the Eagle, two of the great papers of the State, offer a bargain in subscriptions on page 3.
